

## Woodlands Trail and Park Found

I was in my bed almost asleep  
Then I heard an Osprey squawk and squeak.  
I went outside to see what was the matter  
Then and there my teeth started to clatter.

People were coming from the woods right through  
Why it was Katie Brasted and a whole news crew  
A legacy for all, was part of their plan  
A trail and a park-I know that they can!

Was this a secret? Nobody knows.  
Then there was me starting to tiptoe.  
Into the greenspace I was filled with wonder,  
I had to find out what was their number.

When I awoke the next morning  
Into the woods, I went storming  
I went in to take a peek  
A World War II bunker would be where I sneaked

I went in a little deeper  
Why it was giving me creepers,  
There was water covering my toes  
I hope there weren't any toads.

When I got home I was ready for a nap  
But all I knew was that  
This Greenspace would be up to me  
This might be my destiny.
