

## Exploring the Wild

In our school's backyard I have been told  
Is beautiful greenspace that one day may be sold!  
This greenspace is up to us to protect,  
So try we must to be a part of this project.

Of the 400 species of birds I have heard  
Can be found a most unusual bird  
A tall, handsome and hungry egret  
Who needs a feast- that's no secret.

And there's hidden history all around,  
Like the World War II bunkers hidden in the ground.  
Cemeteries with slaves from a time bygone,  
A part of history we're glad has gone.

The Woodlands Trail & Park it's true  
Will be a great place for me and you.  
So come along and help us out,  
It's our legacy -there is no doubt.
