

A Legacy Unfolds

Creating a legacy, or so I am told,
Is a mission that for us, needs to unfold.
Amid our school's quiet, luscious backyard,
Stands bottomland hardwoods that need us to guard.

It's the Woodlands Trail & Park to establish,
In order to protect greenspace that we will cherish.
As our town develops into a great place,
We must not destroy, but this project embrace.

So off we go to write poems down,
In order to protect this priceless ground.
Our efforts will not be in vain,
Because this project's attention we will gain.

Businesses and families from far and wide,
Will want to relocate to our side.
Our quality of life is sure to please,
Abundant greenspace-everyone agrees!
