

## The Woodlands Treasure

The Woodlands Trail & Park - what a creation!  
I hope they include a lot of recreation.  
I heard there were hidden bunkers around  
Mysteriously hidden in this ground.

The Woodlands Trail they've stumbled upon  
But if we do nothing, it will be gone!  
The Woodlands could be a legacy,  
So this project might be up to me!

400 species of birds live there,  
They should know they are in our care.  
Osprey's fly at an enormous height  
Boy, would that be a beautiful sight.

I know this poem is very long  
And I need some rhythm to this song  
But when I'm finished it is true  
I will send this poem back to you.
